

Startup guide

Thank you for choosing monetico!

This quick reference guide will help you get the most out of all the Mobile features

1

Download the app

The Monetico app is free.

2

Pair your device with the keypad

Pairing means using Bluetooth® to wirelessly connect your device with your Mobile solution keypad.

You only have to do this the first time you use the service on your device. Afterwards, your device will automatically recognize the keypad.

3

Change your password

You'll need to change your password the first time you log in.

4

CONGRATULATIONS!

You're now ready to accept card payments with Mobile

IMPORTANT : During the pairing procedure, we highly recommend that you plug in your keypad to a power source using the USB cable that came with it.

Pairing procedure

STEP 1

To make your device discoverable, go to the Settings menu of your device and activate Bluetooth®

STEP 2

Search for a Bluetooth® connection on your keypad

- Turn on the keypad (button on the right)
- Press the yellow key and enter "0" for the code
- Press "F1" to access the MENU
- Select CONFIGURATION and press the green key
- Select TERM CONFIG and press the green key
- Press "F2" to scroll down to MOBILITY and press the green key
- Select ASSOCIATION and then press the green key
- For Apple, select COMPANION iOS. For Android, press « F2 » to select COMPANION OTHER. Press the green key
- New pairing? Confirm the new pairing and press "F4"

STEP 3

For Apple, use the "F2" and "F3" keys to **select your device** from the list of Bluetooth® devices detected by your keypad

For Android, **select the keypad** from the list of Bluetooth® devices on your device. Its name starts with ICMP and ends with the last 8 digits of the keypad's serial number

STEP 4

Confirm the pairing on your device. A message will appear on both your device and the keypad with a confirmation number

Make sure that the numbers match. Use the messages on your keypad and device to verify that the pairing is complete

First time connecting?

Enter your merchant number (the one that starts with 000), username and password you received by email.

To turn the keypad off, press «#» and the yellow key simultaneously.
